

Transmission Fluid CVT JA

Product reference: CYYY-20

CVT fluid intended for specified Japanese continuously variable transmissions.

Transmission Fluid CVT JA

Product name

Transmission Fluid CVT JA

Product overview

Antiwear, oxidation-resistance and corrosion-protection properties effectively extend transmission service life.

Performance

Appropriate viscosity, good friction characteristics and excellent shear stability support smooth shifting. Outstanding antiwear, oxidation-resistance and corrosion-protection properties effectively extend transmission service life. Good compatibility with the rubber sealing materials in transmission mechanisms helps components maintain stable long-term operation. Excellent antifoam properties and storage stability maintain product quality over extended periods.

Applications

Strong wear resistance.

Designed specifically for Japanese continuously variable transmissions.

Packaging

1 L.

CVT JA

CONTINUOUSLY VARIABLE TRANSMISSION FLUID

Smooth, reliable CVT performance for Japanese vehicles.

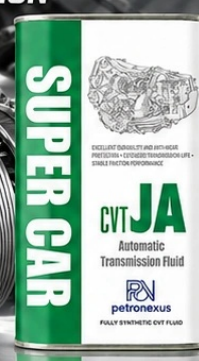

- SMOOTH DRIVING EXPERIENCE**
- RELIABLE PROTECTION**
- BUILT FOR JAPANESE VEHICLES**

SMOOTH TRANSMISSION SUPPORT

Helps Keep Your Journey Moving Further.

RELIABLE FLUID FOR A SMOOTHER TOMORROW

ENGINEERED FOR A BETTER DRIVING TOMORROW

PERFORMANCE HIGHLIGHTS

- Excellent Friction Characteristics
- Good Corrosion Protection
- Superior Anti-Wear Performance
- Outstanding Heat Dissipation
- Excellent Shear Stability
- Exceptional Oxidation Stability
- Advanced Wear Protection for Transmission Components

DRIVE WITH CONFIDENCE
LAST LONGER TOGETHER

PRODUCT DESCRIPTION

PETRONEXUS CVT JA is a high-performance transmission lubricant specially formulated for compatible continuously variable transmissions (CVTs) used in Japanese vehicles. It provides reliable lubrication, excellent friction control, anti-wear protection, corrosion protection, heat dissipation, shear stability and oxidation resistance, helping maintain smooth and durable transmission performance.

- Reliable lubrication and friction control
- Helps protect against wear and corrosion
- Supports efficient heat dissipation
- Stable performance under various operating conditions

QUALITY FLUID. SMOOTHER JOURNEYS.

WIDE APPLICATIONS

SPECIALLY DESIGNED FOR COMPATIBLE CVTs USED IN JAPANESE VEHICLES.

Compatible Japanese Passenger Cars

Urban Driving Vehicles

CVT Transmission Service & Maintenance

Drivetrain and Transmission Systems

RELIABLE SOLUTIONS FOR A WIDER TOMORROW

APPLICATIONS & KEY INFORMATION

Item	Details
Product Type	Continuously Variable Transmission Fluid (CVTF)
Suitable For	Compatible CVTs used in Japanese vehicles
Main Benefits	Friction control, anti-wear protection, corrosion protection, heat dissipation, shear stability, oxidation stability
Typical Use	CVT systems requiring smooth and reliable transmission performance
Use Advice	Follow vehicle manufacturer recommendations regarding CVT fluid compatibility
Packaging	1 L Bottle

THE RIGHT FLUID KEEPS YOU MOVING

WHY CHOOSE PETRONEXUS?

Reliable Quality

Advanced Formulation

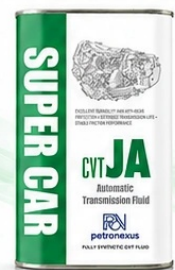

Smooth CVT Performance

Export-Ready Supply

petronexus

TRUSTED FLUID SOLUTIONS FOR A GLOBAL TOMORROW

AVAILABLE PACKAGES

1 L Bottle

FLEXIBLE SUPPLY FOR YOUR BUSINESS NEEDS

SMOOTH AND RELIABLE TRANSMISSION PROTECTION

ENGINEERED FOR A SMOOTHER DRIVE IN EVERY JOURNEY.

Smooth Operation

Protect Components

Reduce Wear

Stable Performance

Keep Moving Further
