

Wote Hydraulic Transmission Fluid No. 8

Product reference: CYYY-33

No. 8 hydraulic transmission fluid with 2 L, 16 L and 18 L packaging options.

Wote Hydraulic Transmission Fluid No. 8

Product name

Wote Hydraulic Transmission Fluid

Viscosity grade

8#

Performance

1. Improved friction characteristics: contains friction modifiers that reduce the fluid's coefficient of friction, allowing vehicle hydrodynamic transmission systems to operate reliably and smoothly.
2. High thermal stability maintains viscosity, effectively reduces sludge formation and prevents lubricant deterioration.
3. High-quality antiwear protection provides excellent wear protection for the hydraulic transmission systems of various vehicles and extends component service life.
4. Appropriate friction characteristics ensure continuous, reliable, smooth and trouble-free transmission operation.
5. Corrosion protection, with good oxidation resistance and anticorrosion properties.

Packaging

2 L × 8 containers; 16 L; 18 L.

Product visual and technical data

PETRONEXUS
No. 8
HYDRAULIC TRANSMISSION OIL

DRIVE INDUSTRY FOR A STRONGER TOMORROW

Stable Friction. Reliable Power Transfer.

PROTECT TRANSMISSION SYSTEMS | SMOOTH OPERATION | LONGER SERVICE LIFE

8 HYDRAULIC TRANSMISSION OIL
Net content: 2L

PETRONEXUS
No. 8
HYDRAULIC TRANSMISSION OIL

SMOOTHER TRANSMISSION STRONGER PERFORMANCE

Built for Smooth, Reliable Power Transmission.

TRUSTED LUBRICATION FOR HIGHER PRODUCTIVITY

8 HYDRAULIC TRANSMISSION OIL
Net content: 2L

PERFORMANCE HIGHLIGHTS

- Enhanced Friction Performance with Advanced Friction Modifiers
- Outstanding Thermal Stability
- Advanced Corrosion Protection
- Excellent Shear Stability
- Superior Anti-Wear Protection

RELIABLE POWER IN EVERY OPERATION

PRODUCT DESCRIPTION

No. 8 Hydraulic Transmission Oil is a high-performance transmission lubricant formulated with specially selected friction modifiers to improve friction characteristics and support smooth, reliable power transmission. It delivers dependable lubrication, thermal stability, corrosion protection, shear stability, and anti-wear protection under varied operating conditions.

- Improved friction characteristics for smooth power transfer
- Reliable thermal stability
- Helps protect against corrosion
- Stable performance under varied operating conditions

LUBRICATION THAT KEEPS INDUSTRY MOVING

WIDE APPLICATIONS

IDEAL FOR VARIOUS HYDRAULIC TRANSMISSION SYSTEMS AND RELATED EQUIPMENT

- Hydrodynamic Power Transmission Systems
- Compatible Industrial Equipment
- Transmission Service Applications
- Equipment Requiring Stable Friction Control

ONE OIL. RELIABLE TRANSMISSION SUPPORT.

APPLICATIONS & SPECIFICATIONS

Item	Description
Product Type	Hydraulic Transmission Oil
Viscosity Grade	No. 8 (8#)
Main Benefits	Friction control, thermal stability, corrosion protection, shear stability, anti-wear protection
Typical Use	Compatible hydrodynamic transmission systems
Use Advice	Follow equipment manufacturer recommendations

PROFESSIONAL LUBRICATION SOLUTIONS FOR A MORE EFFICIENT TOMORROW

WHY CHOOSE PETRONEXUS?

- Reliable Quality
- Advanced Formulation
- Professional Performance
- Export-Ready Supply

PETRONEXUS

Your Trusted Lubrication Partner for Global Markets

AVAILABLE PACKAGES

- 2 L**
2 L x 8 Bottles per Carton
- 16 L**
16 L Pail
- 18 L**
18 L Pail

Flexible packaging to meet your business needs.

PROTECTION THAT KEEPS POWER MOVING

- Smooth Transfer
- Protect Components
- Reduce Wear
- Stable Operation

SAME COMMITMENT. A STRONGER TOMORROW.
