

Votclean Series Cleaners

Product reference: GYYY-55

A cleaner range for industrial cleaning applications described in the source sheet.

Votclean Series Cleaners

Product name

Votclean Series Cleaners

Product overview

This series comprises a new generation of environmentally considerate cleaners. Special penetrating, wetting and stripping agents make them suitable for demanding cleaning processes involving a variety of materials. They provide high cleaning efficiency, good rust protection and material compatibility, low consumption, resistance to unpleasant odors and long service life.

Packaging

170 kg drums; 1-tonne IBC containers.

Unsuitable applications

- Not suitable for aggressive etching of precious metals. Material-compatibility testing is recommended in advance for certain nonferrous metals.

For grade selection, technical requirements, packaging and commercial terms, contact sales@petronexusgroup.com.

PRODUCT DESCRIPTION

Votclean Series is a range of high-performance industrial cleaning agents formulated with specially selected penetrating agents, wetting agents, and soil-removal additives. It delivers excellent cleaning efficiency, rust prevention, and material compatibility, while offering low consumption, odor control, and extended cleaning-solution life.

Powerful Cleaning Rust Protection Low Consumption Odor Control

SMALLER CONSUMPTION
BIGGER CLEANER RESULTS

WIDE APPLICATIONS

EFFECTIVE CLEANING FOR DIVERSE INDUSTRIAL NEEDS

Engine Parts Cleaning Bearings Cleaning Hydraulic Components Cleaning

Precision Machined Components Sheet Metal Parts Cleaning Tools & Fasteners Cleaning

Suitable for a wide range of industrial cleaning operations.

APPLICATIONS

CLEAN SOLUTIONS
REAL INDUSTRIAL VALUE

Operation Scope	Industrial cleaning operations
Contaminant Types	Oils, grease, machining residues, dirt
Material Compatibility	Ferrous and non-ferrous metals, precision components
Cleaning Conditions	Ambient-temperature cleaning, high-temperature/high-pressure cleaning
Performance Focus	Cleaning efficiency, rust prevention, material compatibility

CLEANER COMPONENTS
STRONGER
INDUSTRY
