

Vocoat Series Water-Based Rust Preventive

Product reference: GYYY-56

A water-based rust preventive range for metal protection applications.

Vocoat Series Water-Based Rust Preventive

Product name

Vocoat Series Water-Based Rust Preventive

Product overview

This series is a new generation of environmentally friendly water-based rust preventive products. It uses specialized rust preventive and corrosion inhibitor technology to protect a range of ferrous metal materials against rust. It requires a low dilution concentration, contains no VOCs, has a low environmental and carbon impact, and offers lower costs.

Packaging

170 kg drums; IBC containers

Application limitations

- Intended primarily for ferrous metals. Direct use for long-term rust protection of nonferrous metals such as aluminum or copper is not recommended. Conduct compatibility testing before use on nonferrous metals.

Vocoat Series

WATER-BASED RUST PREVENTIVES

Reliable Protection for Metals.
A More Sustainable Tomorrow.

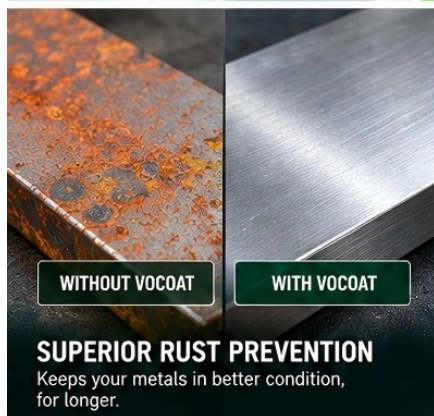

- Excellent Rust Prevention and Corrosion Protection
- Advanced Corrosion Inhibitor Technology
- Low Dilution Concentration Requirements
- VOC-Free Formulation
- Environmentally Considerate and Cost-Effective

PETRONEXUS | DRIVE A CLEANER, MORE EFFICIENT TOMORROW

LONG-LASTING PROTECTION FOR FERROUS METALS

Effectively prevents rust and corrosion during processing, storage and transportation.

- In-Process Protection
- Storage Protection
- Transportation Protection

WIDE APPLICATIONS

Suitable for rust prevention and corrosion protection of various ferrous metals.

- Steel Plates
- Machined Parts
- Cast Iron Components
- Steel Pipes & Tubes

ENVIRONMENTALLY CONSIDERATE FORMULATION

VOC-free, lower chemical consumption, helping you achieve a greener and more sustainable production process.

- VOC-Free
- More Sustainable Manufacturing
- Reduced Environmental Impact
- Cost-Effective Solution

CLEANER INDUSTRY GREENER TOMORROW

WHY CHOOSE PETRONEXUS?

- Reliable Quality
- Technical Expertise
- A Trusted Partner
- Sustainable Solutions
