

TillGo Gengchi Hydraulic and Transmission Dual-Purpose Fluid

Product reference: NJYY-06

A dual-purpose lubricant for agricultural hydraulic and transmission systems.

TillGo Gengchi Hydraulic and Transmission Dual-Purpose Fluid

Product name

TillGo Gengchi Hydraulic and Transmission Dual-Purpose Fluid

Standard reference

JB/T7282-2016

Performance features

Blended from deeply refined base oils and an excellent multifunctional additive package, this high-performance dual-purpose hydraulic and transmission fluid is specifically developed for agricultural tractors and agricultural machinery.

1. Excellent antiwear and load-carrying properties provide outstanding lubrication protection for the transmission and hydraulic systems of tractors and agricultural machinery. They reduce shudder from wet clutch plates and power take-off units, ensuring smooth, stable power transmission.
2. Good thermal and oxidation stability can extend the service life of both the oil and the transmission system.

Applications

Suitable for agricultural tractor transmission systems operating under a variety of demanding conditions.

Packaging

18 L; 16 L
